## 7<sup>th</sup> Music Festival Na palade - songs & stories

The festival, which was founded in 2018 as a symbol of the 130th anniversary of organized tourism in Crikvenica, will once again fill hearts with music, tradition, and joy this year. This June, Na palade will bring a special musical journey dedicated to ethno music – a rich heritage that connects generations, cultures, and spaces. Through diverse performances and authentic interpretations, the festival will bring the sounds of tradition to life, from original chants to contemporary ethno expressions that reinterpret heritage in new ways. Music festivals have always been a place of encounter, inspiration, and the creation of new stories, and Na palade continues that tradition this year, blending the past and present. Whether you are a fan of original melodies or drawn to modern ethno arrangements, a unique musical experience awaits you.

SELCE CENTER

## Tourism Day

The small seaside town of Selce, which enchants with all its offerings and natural beauties, got its first public beach on August 4th, 1894. Besides being an important part of the tradition, this day is considered the beginning of organized tourism. In honor of this, the cherished tradition has been celebrated for over half a century, with a festive atmosphere prevailing. The event was once called the Venetian Night and later renamed Tourism Day. The evening is reserved for a boat ride, decorated with lanterns and ash trees, led by a large sailing ship. Visitors can enjoy music by Marko Pecotić, Silvija Dvornik, and B Band, and at midnight, the sky will light up with fireworks. We invite you to join us in celebrating Selce and its tourists with a rich cultural, entertainment, musical, and gastronomic program! Let Selce serve you the sea and tradition on a plate, the vineyard in a glass, and the warmth and love of its hosts in your heart.

## Crikvenica Town Day

The name Crikvenica was first mentioned on August 14<sup>th</sup>, 1412, in official written documents, specifically in the charter of Prince Nikola IV. Frankopan, in which he entrusted the management of the castle and church in Crikvenica to the Paulines. This very day has been reserved for the city's birthday for decades. Every year, in honor of Crikvenica, a City of Crikvenica Day is organized during that week, with a rich cultural, entertainment, and sports program.

## 60<sup>th</sup> Fishermen's Week

For 60 years, the transition from August to September in Crikvenica has been reserved for a special event, one with such a rich tradition that it deserves to last an entire week! This is the Fishermen's Week, which is rooted in Crikvenica's fishing history and serves as a reminder of the "golden days" of fishing in Crikvenica. Many generations of visitors plan their vacations in Crikvenica specifically during this time. The love for the sea, fishing, and the tradition of this area is woven into the numerous events of the festival - sports, music, entertainment, and cultural activities.

## 14<sup>th</sup> Oily Fish Month

During September and October, the Oily Fish Month takes place, part of the Oily Fish Road project designed by the Tourist Board of the City of Crikvenica, and inspired by the rich fishing history of the region. Why oily fish? Primarily because it was once one of the most important ingredients in traditional cuisine. Moreover, Crikvenica fishermen, as early as the 18<sup>th</sup> century, were skilled and well-known masters in catching oily fish as well as other types, with many passing down their knowledge and skills to generations of fishermen around the world. Discover how the traditional ruler of the region's gastronomy will surprise you during the Oily Fish Month, how it will impress your taste buds, and what programs are being organized in its honor.
